CST Storage Manufacturing Facility To Be Recognized for Outstanding Safety Record

********Photo Opportunity********

CST Storage President Steve Westfall will lead recognition ceremony and award employees with bonuses beginning at 1 p.m. on Thursday, July 19 at CST Storage, located at 491 Baxter Lane in Winchester.

WINCHESTER, Tenn. (July 18, 2012) – At 1 p.m. on Thursday, July 19, 2012 leaders from [CST Storage](#), located at 491 Baxter Lane in Winchester, as well as parent company CST Industries will be in Winchester to recognize the employees of the CST Storage manufacturing facility for its outstanding safety record of reaching three years without a lost time accident. According to the Tennessee Occupational Safety & Health Administration, the national industry average is 4.2 accidents during this same period of time.

“Reaching three years without a lost time accident is a proud accomplishment for any company, but for companies in heavy manufacturing, our safety record is nothing short of incredible. It boils down to the dedication of our employees who work every day with a focus on safety, quality and efficiency. We greatly appreciate their tremendous efforts,” said Joe Underwood, Plant Manager for CST Storage.

Joining in the celebration and employee recognition will be Joe Underwood, Plant Manager; Steve Westfall, President of CST Storage, as well as Declan McLaughlin, President and CEO of CST Industries, parent company of CST Storage.

“We are truly proud of our CST Storage employees in Winchester. Not only are they hardworking and deserving of this honor, but they have also set an example of world class safety throughout our entire company,” said McLaughlin.

As a special thank-you for their accomplishment, CST Storage will provide lunch for all its employees and award each person with a \$200 bonus, one extra day of vacation with pay, and a commemorative t-shirt.

About CST Industries

CST Storage is an American owned company and manufacturer of factory welded and bolted steel storage tanks. The company’s facility in Winchester, Tenn. manufactures high quality welded tanks and silos for use in liquid and dry bulk storage worldwide.

CST Industries (www.cstindustries.com) is the world's largest provider of storage tanks and aluminum domes and covers. Headquartered in Lenexa, Kan., CST Storage manufactures the leading tank coating technologies in the industry, providing glass-fused-to-steel porcelain enamel and proprietary Optibond® cured epoxy coating systems. CST Industries products are found in 125 countries worldwide.
