

# TecTank™

Bolted & Factory Welded Epoxy Coated Tanks for Liquid Storage

# CST

# TecTank™

**TECTANK™** storage systems from CST (formerly Columbian Steel Tank Company™, Peabody TecTank and Columbian TecTank®) are the comprehensive storage solution for any fluid. They are recognized as the industry standard and are specified by the largest engineering firms in the world.

With 125 years of storage solution success, CST has perfected its tanks to be the most economical choice in water and industrial liquid storage without skimping on tank value and durability.

*If it's water, wastewater or industrial liquids, we've got it covered!*

- The fastest construction available
- Low installed up-front costs
- High-quality and durable coatings extend tank life and limit operating maintenance costs
- Longer tank life = lower life cycle costs = quicker ROI
- No in-field painting or re-painting, eliminates harmful silica from sand blasting and paint overspray
- Can be constructed in all-weather types without the typical delays common with other technologies
- The strongest corrosion and abrasion resistance on the epoxy coated market
- TecTank storage systems are the "Green" choice in liquid storage
- Minimized construction footprint protects surrounding environment

» FLAT PANEL | CHIME PANEL | WELDED

## Designed, manufactured and constructed fast for your specific needs

TecTank storage systems can be manufactured, erected and in operation up to three times faster than field welded or concrete applications.

TecTank tanks are engineered and fabricated to satisfy each unique specification. CST utilizes our own professional engineers who have designed tanks for a wide range of industry-specific standards and applications.

Every TecTank tank is manufactured in a factory-controlled environment. The result is precise steel panel production teamed with an optimized coating process. CST has invested millions in a completely modernized and automated fabrication line in our ISO 9001:2015 Certified facilities. This state-of-the-art operation delivers the best epoxy coated steel tanks available in the market.

» Chime Panel Tank Systems

» Factory Welded Tank Systems

CST's TecTank product line delivers high-quality and durability at the best value per gallon, making TecTank tank systems the best choice for liquid storage applications.

Water		Wastewater		Industrial Liquids & Chemicals	
Potable Water	Deminerlized Water	Landfill Leachate	Flow Equalization	Fertilizer	Edible Oils
Raw Water Storage	Salt Water	Storm Water Run-off	Primary & Secondary Containment	Insecticides	Paints & Primers
Irrigation Water	Brines Water	Flocculation	Sedimentation	Food Waste	Detergents
Disinfection	Brackish Water	Trickling Filters	Aeration	Food Additives	Mining Fluids & Slurry
Fire Protection	Desalinization	Anaerobic & Aerobic Digestion	Biological Oxidation	Glycols	De-Icer
Distilled Water		Sludge Storage		Lime & Carbonate Slurry	Dyes & Pigments
Deionized Water		Disinfection		Secondary Containment	Pulp & Paper Processing
