TecTank

Peabody TecTank

As your Original Equipment Manufacturer, CST offers Master Service Agreements that are designed to be highly customizable roadmaps for your annual tank and silo maintenance, planning and budgeting. Why shop for alternative services, such as local engineering contractors and millwrights, when no one knows your tank better than we do. CST's specific detailed solutions can help improve your safety, performance, and total life cycle costs – saving you time & money.

CST has been serving customers for over 125 years and is, therefore, one of the most experienced providers in the industry. Our expert services team will work with you to ensure professional, prompt, and satisfactory delivery of all services contracted. We guarantee a superior service experience by providing you with superb customer support, making sure your team knows about the resources available to them, and by making it easy for your team to take advantage of them. CST also proactively reaches out to you to provide opportunities to voice and resolve any lingering concerns or issues.

» A SINGLE SOURCE SERVICE PROVIDER

Our Certified Inspectors will evaluate the overall functionality as well as any specific areas of the customers' concern. Tanks will be evaluated against 15-20 critical areas.

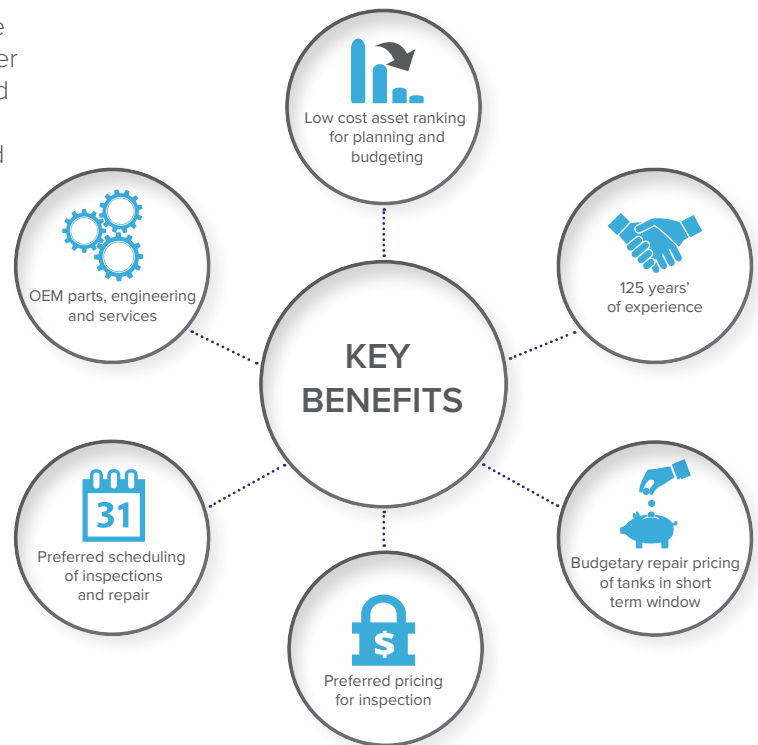

The following areas will be observed where applicable:

- > Concrete ringwall or slab foundation
- > Anchor bolts
- > Grout
- > Exterior sidewalls - general condition
- > Exterior sidewall coating
- > Exterior hardware
- > Visible exterior gasket or sealer
- > Interior skirt coating
- > Hopper coating
- > Hopper hardware
- > Overall roof/deck/dome condition
- > Exterior roof/deck/coating
- > Roof/deck appurtenances
- > Pressure relief valve (PRV)
- > Ladders, platforms, safety cages and handrails
- > Appurtenances
- > Other tank features as necessary

CST is the easier, better, and more cost-effective provider of maintenance services for your CST tank and silo fleet since we provide a one-stop-shop for all your tank and silo service needs, including inspections, repairs, modifications, and other specialized tank and silo services. With CST there is no need to search for tank or silo drawings, specifications, or reverse engineer those assets, saving you both time and hassle, and providing you with high quality and dependable services.

Why CST?

- > Single supplier, single point of contact worldwide
- > Company-wide commitment to safety
- > Trained and certified inspectors
- > Wide range of inspection services
- > Advanced testing methods and techniques
- > Turnkey project management
- > Engineering, manufacturing and technical support
- > Over 350,000 tanks and 19,000 covers installed worldwide – we know tanks!

Is your storage tank due for inspections? If so, contact CST, the largest tank and dome manufacturer in the world.
