

Fire Protection Storage Systems

Unrivalled Experience: With over 130 years of history, CST is the firmly established leader in bolted and factory-welded steel tanks. Offering the best and longest lasting coatings for fire production storage – TecTank® Trico Bond EP® epoxy and Aquastore® Vitrium® glass-fused-to-steel – we have proven experience in designing solutions that meet your requirements.

Delivering What Customers Need Before, During, and After Construction

- Tank Manufacturing Expertise – CST is the largest factory-coated tank manufacturer with over 350,000 tanks in over 125 countries
- Fire protection storage tanks for distribution warehouses, military bases, retail stores, power plants, oil refineries, manufacturing plants, beverage plants, industrial parks, hospitals, schools, and data centers
- Complete Submittal Packages – CST supplies detailed drawings, engineering calculations, and foundation designs all stamped by licensed professional engineers
 - Rapid Construction – Time and money are saved when CST's tanks are constructed in 1/3 the time of field-welded
 - Safe Construction – CST tank designs facilitate safe construction procedures
 - Dedicated Project Managers and Engineers – Save time and reduce risks with dedicated professionals and integrated solutions
 - Limited Space Designs – CST's tanks are designed for construction and use in tight locations where obstructions such as buildings, pipe racks and air conditioning units may restrict the tank's ideal location

Highest Quality

- Meet or exceed NFPA 22, FM, USACOE and other industry standards
- All CST tanks are factory coated in environmentally controlled conditions at 9001ISO Certified facilities
- TecTank® tanks are factory-coated with electro statically applied proprietary epoxy coating using CST's OptiBond® Coating Process
- Aquastore® tanks with Vitrium glass-fused-to-steel coatings are fused to the base metal at 1,500° F in a state-of-the-art manufacturing facility
- The Green alternative to field welded tanks – No on site VOC's

Tank Under Fire. Rely on CST®.

Tank Accessories also Available for a Complete, Turnkey Solution

- Heaters
- Insulation
- Level indicators
- Foundation designs

Best Value

- Aquastore® glass-fused-to-steel tanks offer the lowest total life cycle costs in the industry
- TecTank® epoxy tanks offer the lowest initial costs without sacrificing coating quality and durability
- Reduce potential delays since CST's factory-coated tanks can be constructed in almost any weather conditions
- Reduce construction time and costs with CST tanks that can be constructed in 1/3 the time of field welded tanks
- CST's superior factory-applied coatings extend tank life to reduce overall maintenance costs
- Bolted tank designs make them easy to expand and relocate
- Extensive color choices
