

Fire Protection Storage Systems

Unrivalled Experience: With over 130 years of history, CST is the firmly established leader in bolted and factory-welded steel tanks. Offering the best and longest lasting coatings for fire production storage – TecTank® Trico Bond EP® epoxy and Aquastore® Vitrium® glass-fused-to-steel – we have proven experience in designing solutions that meet your requirements.

Delivering What Customers Need Before, During, and After Construction

- Tank Manufacturing Expertise – CST is the largest factory-coated tank manufacturer with over 350,000 tanks in over 125 countries

Fire protection storage tanks for distribution warehouses, military bases, retail stores, power plants, oil refineries, manufacturing plants, beverage plants, industrial parks, hospitals, schools, and data centers

- Complete Submittal Packages – CST supplies detailed drawings, engineering calculations, and foundation designs all stamped by licensed professional engineers
- Rapid Construction – Time and money are saved when CST's tanks are constructed in 1/3 the time of field-welded
- Safe Construction – CST tank designs facilitate safe construction procedures
- Dedicated Project Managers and Engineers – Save time and reduce risks with dedicated professionals and integrated solutions
- Limited Space Designs – CST's tanks are designed for construction and use in tight locations where obstructions such as buildings, pipe racks and air conditioning units may restrict the tank's ideal location

Highest Quality

- Meet or exceed NFPA 22, FM, USACOE and other industry standards
- All CST tanks are factory coated in environmentally controlled conditions at 9001ISO Certified facilities
- TecTank® tanks are factory-coated with electro statically applied proprietary epoxy coating using CST's OptiBond® Coating Process
- Aquastore® tanks with Vitrium glass-fused-to-steel coatings are fused to the base metal at 1,500° F in a state-of-the-art manufacturing facility
- The Green alternative to field welded tanks – No on site VOC's

Tank Under Fire. Rely on CST®.

Tank Accessories also Available for a Complete, Turnkey Solution

- Heaters
- Insulation
- Level indicators
- Foundation designs

Best Value

- Aquastore® glass-fused-to-steel tanks offer the lowest total life cycle costs in the industry
- TecTank® epoxy tanks offer the lowest initial costs without sacrificing coating quality and durability
- Reduce potential delays since CST's factory-coated tanks can be constructed in almost any weather conditions
- Reduce construction time and costs with CST tanks that can be constructed in 1/3 the time of field welded tanks
- CST's superior factory-applied coatings extend tank life to reduce overall maintenance costs
- Bolted tank designs make them easy to expand and relocate
- Extensive color choices
